

SSE & SSEM

1-11/16" Wide Two Terminals, One End

- 8-1/8 - 72" Lengths
- 200 - 2,550 Watts
- 120 and 240 Volt
- 10 - 13 W/in²
- Optional Mounting Tabs

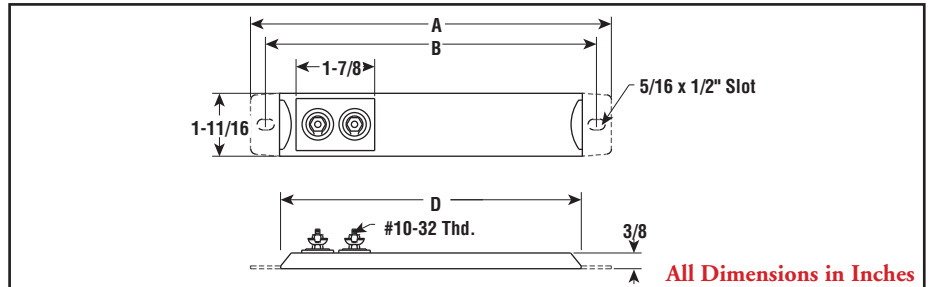

Type SSE

- Rust Resisting One-Piece Iron Sheath
- 750°F Max. Sheath Temp.

Type SSEM

- Monel One-Piece Sheath
- 900°F Max. Sheath Temp.

Dimensions

Applications

Strip heaters are used for heat transfer by conduction or convection to heat liquids, air, gases and surfaces.

Seamless strip elements are supplied without mounting tabs as standard.
