

NS & NSL

3/4" Wide High Temperature

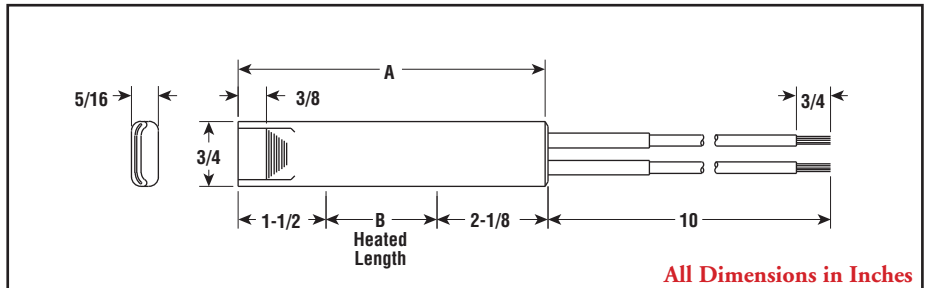

- Terminal Block, One End (type NS)
- Lead Wires, One End (type NSL)
- 12-1/2 - 54" Lengths
- 500 - 3,000 Watts
- 120, 240 and 480 Volt
- One-Piece INCOLOY® Sheath
- 24 - 38 W/in²
- 1500°F Max. Sheath Temp.

Dimensions (type NS)

Dimensions (type NSL)

Applications

Strip heaters are used for heat transfer by conduction or convection to heat liquids, air, gases and surfaces.

One-piece strip heaters are supplied without mounting tabs as standard.
